BULLETIN

TO: High School and Middle School Volleyball Coaches
FROM: Dr. Cindy Daniel, CAA, Assistant Executive Director
DATE: July 2018
SUBJECT: 2018-2019 Volleyball Season

Coaches' Packets are available to all varsity high school coaches and all middle schools. If your high school also sponsors a ninth grade volleyball team, that coach may request a packet from this office. **Note** – this is for a high school ninth grade team only. Please share this information with the ninth grade coach.

Required Reading:

1. Coaches Packet
2. NFHS Rule Book
3. Interscholastic (website)

2018-2019 Points of Emphasis

1. **New Requirement:** Rule 127-2-15. All coaches are required to submit an Emergency Action Plan to WVSSAC, County Board of Education and your local emergency response agency (Senate Bill 40) for all practice and game facilities. Training and practice of the plan is required.
2. **Ejections-Player/Coach** ejection is for two (2) dates not two (2) contests.
3. **Player Apparel** – Buttons, zippers, and pockets are not allowed on uniforms. All players must come on the court appropriately dressed. Uniforms are to be worn as designed. No bare midriff tops. If uniforms are designed to be tucked in, they must be. If uniforms are not designed to be tucked in, they do not have to be as long as the entire stomach is covered. Shorts are not to be rolled down at the waist. Shirts worn under the uniform top must be the same color as the dominate color of the top. Compression clothing worn under the shorts must be the same color of the uniform shorts and not extend below the shorts. No glitter may be worn on the body, uniform or accessories. (See NFHS 4-2 Art. 1-7)
4. **Line Judges** – Line Judges are required for regular season; They must be trained. Whenever possible, schools should use WVSSAC registered officials for this position. WV Line Judges will **NOT** use flags. Refer to *The Interscholastic*.
5. One volleyball scrimmage is allowed for 9th grade and middle schools. Two (2) volleyball scrimmages with **another high school** may be conducted with the following conditions:
 - a. After seven (7) days of practice, each team member must have seven (7) team practices.
 - b. Prior to the first game;
 - c. No score is kept;
 - d. Free substitution;
 - e. The use of registered officials would not be a violation of game conditions.
6. Warm-Up for the first match will be 2-6-6. Refer to *The Interscholastic*.

The required Middle School net height is 7 feet.
The height for High School and 9th Grade Teams is 7 feet 4 1/8 inches.

Important reminders:

1. Facilities – Coaches are to remove all floor obstacles, gym equipment, etc., from the playing area & playable areas before teams arrive. Gym floors must be swept before warm-ups begin. Coaches are responsible for instructing all team personnel to maintain cleanliness of the bench area during and after the match. Note: If clean up is required after a time-out has ended, an unnecessary delay penalty will be assessed.
Equipment Safety – Schools need to check padding on cranks, poles and the official's stand to ensure the safety of all participants. Everything from the floor up to 5'. This includes the wheels on the officials stand.
Team seating is limited to 16 seats. Teams may have 16 personnel seated and 6 players on the court. Additional personnel must be seated in the area available closest to team bench but not on the floor beside the bench. All team personnel must be dressed in uniform. Note – This does not affect stated tournament admission or reimbursement (limit – 18).
2. Warm-up time for the first game of the match must be 2-6-6. Thereafter, warm-up time between subsequent sets may be shortened by mutual agreement of coaches or by the tournament format. **During a team's six (6) minutes, the team is allowed to utilize the entire court and practice serving.** Refer to *The Interscholastic* for further explanation.
3. **Charleston Civic Center will be the site for the State Volleyball Tournament on November 9-10, 2018. Doug Hogue will be the Tournament Director.**
4. Officials (umpire and referee) for the sectional, regional, and state tournaments must be registered Class I or II officials unless approval is given by the WVSSAC. Registered officials must be used during the regular season. No non-registered person may officiate at any level. Coaches involved in planning a sectional or regional tournament are asked to refer to the Volleyball Program (The Interscholastic) for specified dates for contracting officials.
5. Scorekeepers must be trained. Coaches should make every attempt to train more than one scorer. Each team is to have a Libro Tracker.
6. New Ball - Spalding VB5
7. **2018-2019 Dates:**
High Schools

First Date for Practice	August 6, 2018
First Contest Played	August 29, 2018
Sectional Tournament	October 29 - November 1, 2018
Regional Tournament	November 3, 2018
State Tournament	November 9-10, 2018

Middle Schools

First Date for Practice	August 13, 2018
First Contest Played	September 5, 2018
Season Ends	October 27, 2018
8. A team must have participated in at least twelve (12) matches to be eligible for sectional tournament competition (*high schools only*).
9. The volleyball season will end for each high school team at tournament elimination.
10. A high school volleyball team will be permitted to play in no more than **22** (dates) exclusive of sectional, regional, and state competition. Middle school teams will be permitted sixteen (16)

dates. Coaches are asked to notify the WVSSAC if changes, postponements, cancellations, etc., occur in the originally submitted schedule. These changes/updates can be made online.

11. WVSSAC Rule 127-3-13 Practice – Please refer to the enclosed copy for practice procedures and inform athletes of the regulations.

12. In dual competition, a player may participate in a maximum of 3 sets against the same opponent if match is 2 of 3. If the match is 3 of 5 and 2 of 3 a player can play a total of 6 sets. A JV player can only play in 6 sets per day (dual, tri or quad). Middle School (2 teams) 2 of 3 - 4 sets. **If a player attempts to exceed the allowed number of sets, the officials should use preventive officiating and warn the coach. If the player then enters the set, she becomes an illegal substitute and action will be taken accordingly. Special Report is to be done online and sent to the WVSSAC office. - See Interscholastic**

13. **Coaches' Evaluation of Officials:** It is the responsibility of the high school varsity coach to rate each official registered with the WVSSAC (all regular season varsity matches and all tournament matches). Please read and follow the directions (enclosed) on how to obtain a PIN and entering coach's reports online.

These reports are to be submitted online after each play date. This must be done correctly and on schedule. Failure to comply will carry a \$10.00 per game fine.

The Board of Directors has approved the suspension of any coach who fails to submit these forms or to pay the fine within the designated time line. This organization makes every effort not to suspend a coach or impose monetary penalties which affect your school finances. Therefore, if you have a change in your schedule (cancellations, etc.,) update your schedule online.

14. Please be advised that the required Coaches'/Officials' Rules Clinics will be held at various locations (see enclosed sheet). **It is mandatory for all head coaches to attend one of the state sponsored rules clinics. You CANNOT send a representative for the head coach. If the head coach is not present at said clinic, there will be a \$50.00 fine assessed.** The WVSSAC Board of Directors has adopted a regulation that sport programs will be suspended if the head coach fails to attend the State Rules Clinic and the \$50.00 assessed fine is not paid. Clinic schedule and locations are online.

The clinic attendance requirement will not be granted if you are late in excess of 10 minutes.

15. The WVSSAC promotes good sportsmanship in all sport programs. We encourage you to inform parents and athletes of the importance of supporting sportsmanship. Please review sportsmanship with your team; WVSSAC guidelines and rules are located in the **Rules & Regulations Handbook** online.

16. Coaches are asked to carefully review the Spectator Support Information with players, fans, and parents.

17. Coaches are responsible for discussing the Bench Clearing Rule 127-4-3.7.7 with all other coaches and players prior to participation.

Rule 127-4-3.8 Code for Interscholastic Athletes – Coaches are hereby notified to carefully review this rule with their athletes.

<p>Suspension/Recruitment Policies - Carefully review the enclosed rule clarifications and contact me if you have any questions.</p>

18. Officials will issue red and yellow cards. Issuance of a red card and/or red/yellow together will require a Special Report to be sent to the WVSSAC.

19. Preseason Meetings: It is highly recommended that all coaches conduct preseason meetings for their players and parents. In addition to their own rules and regulations, coaches must address players on taunting, conduct and sportsmanship rules before the first regular season match.
20. Coaches, players and spectators must note that officials will be asked to strictly enforce all taunting, conduct, and sportsmanship rules.
21. Coaches are reminded to review National Federation Rule **12-2-6**. This rule allows the head coach to stand in the libero replacement zone during any dead ball to instruct his/her players. The privilege is lost and the head coach must remain seated as outlined in 12-2-5 if a card is issued to anyone on the team bench. ****NOTE** – A coach cannot stand in this area during a dead ball and converse with the officials. They may talk to players only.
22. **Head and Neck Trauma Guidelines** – Refer to the approved Return to Play/Concussion Protocol. RTP refers to return to play and return to practice. The appropriate health care professional will determine when a concussed athlete may return to participation.
23. **Use of Performance Enhancing Substances by Athletes** – It is the philosophy of the National Federation and the WVSSAC that students be encouraged and supported in their efforts to develop and maintain a healthy lifestyle. In promotion of safety and healthy lifestyles, the WVSSAC Sports Medicine Committee requests that coaches assume the responsibility of informing athletes that the uses of such substances should be discontinued especially during the times when dehydration may occur due to potential life threatening consequences. The committee further encourages all athletic trainers to support coaches in promoting healthy lifestyles. **To be better informed, please take the free NFHS Course “Appearance and Performance Enhancing Drugs and Substances”.**
24. Coaches are encouraged to contact their local officials board to train their scorekeepers, libero trackers, and line judges prior to the first contest. Officials can also aid in safety precaution procedures with coaches and review legal uniforms, accessories and new rules with players.

2018-2019
VOLLEYBALL RULES CLINICS

<u>DATE</u>	<u>LOCATION</u>	<u>TIME</u>	<u>COORDINATOR</u>

Aug. 10	*WVSSAC Office *Make-up Clinic - \$10.00 Fee	5:00 p.m.	Dr. Cindy Daniel

SCHOOLS: The **Head Coach** shall be **required** to attend any sports rules clinics which are sponsored by this Commission in his/her coaching assignment. Schools failing to have a head coaching position filled at the time of the clinic will be required to have a school representative present at the rules clinic. An individual can only represent one school unless he/she is head coach at both schools. In a 9-12 school, both the varsity and 9th grade coach are required to attend. Failure to have a representative at one of the above clinics will result in a \$50.00 fine.

The clinic attendance requirement will not be granted if the coach or representative is late in excess of 10 minutes.

§127-3-30. Volleyball (Girls).

30.1. Rules: Volleyball rules published by the National Federation of State High School Associations are the official rules for all interscholastic competition unless otherwise provided by Commission modification.

30.2. Organized Team Practice: Organized team practice will begin on Monday of Week 6 and the first contest may be played on Wednesday of Week 9.

30.3. Length of Season: The volleyball season will end for each team by WVSSAC tournament elimination.

30.4. Maximum Team Contest: A volleyball team will be permitted no more than 22 playing dates exclusive of sectional, regional, and state contests.

30.4.1. Dual, triangular and quadrangular matches count as one date. Matches in which five or more schools participate count as two dates.

30.5. In a Junior Varsity/Varsity dual competition, a student may participate in a maximum of four (4) games against the same opponent if a match is 2 of 3 games and six (6) games if the varsity match is 3 of 5 games.

30.6. Scrimmages: Two volleyball scrimmages with another high school may be conducted. See Glossary.

30.7. Individual students of a team must have practiced on 14 SEPARATE days, exclusive of the day of a contest, before participating in an interscholastic contest.

30.8. A student may not play or practice on a non-school volleyball team while a member of the school team.

30.9. A student may accept awards only in WVSSAC sanctioned events during the season of that sport. These awards must be consistent with the items specified in the Awards Rule. Students may accept only this same type of award in non-sanctioned events outside the sport season.

30.10. *Middle School* - The above will apply for Middle School with the following adaptations:

30.10.1. Middle school teams will be permitted 16 playing dates.

30.10.2. Organized team practice will begin on Monday of Week 7 and the first contest may be played on Wednesday of Week 10.

30.10.3. Middle school season will be completed by Saturday of Week 17.

30.10.4. Middle school teams are permitted one (1) scrimmage. See Glossary.

Volleyball Rules Changes 2018-19

- 2-4-1b: A referee shall stop play when any player gains an illegal advantage by contacting any team member while playing the ball.
Rationale: Clarifies that no team member may assist a player during an attempt to play the ball.
- 5-5-3b(10) (NEW): The second referee has the responsibility to ensure that the head coach remains in the replacement zone no closer than 6 feet to the sideline, when standing during play.
Rationale: Supports the second referee's responsibilities as outlined in the Officials Manual.
- 5-5-3b(13), 5-5-3b(20), 5-8-3a NOTE (NEW): When multiple courts are in use, the second referee may end a time-out or interval between sets with a long whistle in place of the timer sounding an audio signal (horn).
Rationale: Clarifies timer and second referee responsibilities during time-outs/intervals when multiple courts are in use.
- 9-8-2 EXCEPTION (NEW), 11-4-1b (NEW): When a replay is signaled due to an injury/illness and the injured/ill player cannot continue play, the head coach may request a substitute or complete a legal libero replacement for the injured/ill player or take a team time-out(s) if the team has remaining time-outs.
Rationale: Clarifies the procedures for a replay due to an injured/ill player and adds the option of a legal libero replacement.
- 10-2 PENALTIES 2: After a team is charged with an unnecessary delay, the coach may request no further substitutions until the next completed rally.
Rationale: Eliminates further delay of the set by removing the option to request additional substitutions after a team is charged with an unnecessary delay.
- 11-5-3 (NEW): Between sets, teams may warm up in their playing area, but may not hit volleyballs over the net into the opponents playing area.
Rationale: Establishes parameters for warming up between sets that minimize the risk of injury.
- SIGNAL #21: To signal unnecessary delay, raise the hand on the side of the offending team beside head, palm facing shoulder, hold the appropriate card on the wrist of the raised hand.
Rationale: Simplifies mechanics for unnecessary delay signal and clarifies side at fault.

2018-19 VOLLEYBALL MAJOR EDITORIAL CHANGES

- 1-5-2c (NEW), 1-7-2 thru 4: Provides consistency by listing all reasons why a match shall be declared a forfeit and clarifies that a forfeit is considered a termination of a match and not a suspension.
- 5-4-1c: Clarifies that the inspection of net antennas is a prematch responsibility of the first referee.
- 5-5-3b (13) & (20): Clarifies that the second referee shall use a double whistle to indicate the warning during a time-out and when an intermission is used.
- 6-4-5 NOTE (NEW): Clarifies that when a team is playing with fewer than six players, the vacant position remains open when rotating to the front row.

2018-2019 Volleyball Editorial Changes

- 2-1-4, 5-2-1b, 5-4-4d(1) & (4), 10-4-3c, 12-2 Procedures for Unsporting Conduct Violations 4 and 5, How to Use the Signals #20**

2018-19 Volleyball Points of Emphasis

Safety of Referee Stands
Warm-Up Safety
Treatment of Line Judges
Net Fault Signal Mechanics

The Volleyball Line Up Card

Roster and Line-Up (Rule 7-1)

- 10 minutes prior to the end of pre-match timed warm-up, a coach from each team shall submit in writing to the scorer an accurate roster giving names and uniform numbers of all players for the match. This roster must be entered into the scorebook and remain at the score table.
- 2 minutes prior to the end of pre-match timed warm-up, a coach from each team shall submit to the scorer an accurate, written line-up of the uniform numbers for the six (6) starting players in serve order. This lineup is to remain at the scoretable.
- Check for a Libero player – if none marked, ask coach (preventive officiating)
- The R2 will verify that the line-up has been entered correctly on the official score sheet
- Within 2 minutes following each game, a coach from each team shall submit a written, accurate numeric lineup to the scorer
- The written roster and current lineup shall remain at the officials table throughout each set and match

Lineup Card (See NFHS Volleyball Case Book)

The lineup card is a required tool to assist the R2 in carrying out their duties. The R2 has the sole responsibility to record both teams in starting floor position on his/her lineup card. The lineups submitted to the scorer from each coach are in serve order.

The card and pencil/marker are in their possession during the game. The card will provide the following:

***Correct serving order**

***Captains**

***Who is serving**

***Player identification**

***Substitutions**

***Time-Outs**

The style/form for a lineup card is up to the official – whatever you can make sense of and what is effective for you.

**ALL REGISTERED VOLLEYBALL OFFICIALS ARE REQUIRED TO USE A LINE-UP CARD
WHEN SERVING AS THE R2 IN A MATCH.**

TEAM LINEUP SHEET

Lineup:

1. Check if your team will serve or receive.
2. List numbers of the starting lineup — in proper serving order to start the set — on the appropriate set lineup sheet.
3. Mark the floor captain with a "c."
4. Designate the uniform number (from the team roster) of the libero player for each game in the space provided.

Note: The lineup must be submitted to the scorer two minutes prior to the end of timed, prematch warm-up.

State Tournament Program Information

Goal: *To provide a quality program for all championship events*

What: *Volleyball State Championship Program*

Deadline: *Submit Upon Winning the Sectional Tournament But No Later Than NOON on November 5, 2018*

Required Online Submission Only - (School Information-Roster-Schedule)

- ✓ Go to www.wvssac.org click on Admin Login in the upper left corner of homepage
- ✓ Type in your Username and Password as the school Administrator in the appropriate sections and click on Login
- ✓ Click on Submit Rosters. Under Program select Senior and select **Volleyball**
- ✓ Complete the School Information and head coaches information. Click Update/Continue
- ✓ Click the Sync button and enter the information requested, then save by clicking the Update/Save Roster button. Always view your roster for accuracy.
- ✓ If you don't find a student, go to the Eligibility Certificate Form and add the name and return to the Roster and click Sync button. **Note:** The Sync button feature has been added to update all names on the active Eligibility Certificate Form. Check for accuracy. Save all changes to your eligibility certificate and roster.

Required Items for a Team Page:

School Information, Head Coach Information, Roster Information. Update/Complete Online - Printer will use this for the Program Page.

Team Picture

Individual Head Coaches' Picture

Page Sponsor - Please contact a business or the boosters club concerning sponsoring this page. Ad is about the size of a business card which often times is used.

Team Page Cost - \$125 - Make checks payable to WVSSAC. Indicate sport & school in memo section of check.

When emailing the team/coach pictures and page sponsor, please enter the school name (*No Abbreviations, please*) and sport in the subject line of the email.

Refer to the previous page
for instructions on
filling out coaching and team
information online.

Regional Tournament Directors are to give a copy of this Rooming List Information Sheet and the Rooming List to the coach of each state qualifier.

WVSSAC STATE TOURNAMENT ROOMING LIST INFORMATION

Please complete the rooming list for this year's State Tournament. Area hotels/motels usually provide rooms at a special rate to those teams and parents attending the State Tournament. Payments for teams must be made in full by a **school check** (not personal) for all expenses.

Reservations must be made as early as possible. When speaking with the hotel/motel contact, please be sure to identify your school name and indicate that the reservations are for the state tournament.

Please check the website for the approved list of hotels/motels who will provide rooms for your sport state tournament.

Hotel / Motel Policy

Effective with the 2010-2011 school year, member schools that are eligible to receive reimbursement for lodging at state championship sites **MUST** be housed at hotel/motel sites that participate in a cooperative agreement with the WVS-SAC. *(Member schools will be notified by information posted on the WVS-SAC website and material included in the sport specific coaches packets as to which lodging sites have entered into an agreement with the WVSSAC.)*

Schools that choose to use unapproved lodging sites will not receive any reimbursement.

Entering Coaches Evaluations Online

1. Go to www.wvssac.org
2. Click on Admin Login (Located in the upper left-hand corner of the homepage)
3. Enter in your Username & Password in the Username **and** Password sections
4. Click on Log In
5. You are now on the Coach's Management Page
6. Click on Submit Coach's Evaluation of Officials
7. Select Opposing School. **Note:** Member Schools are selected from the Drop Down Box. For Out-of-State or Non-Member Schools select Non-Member/Tournament section located below the member school drop down box. Then type in the name of the non-member school
8. Enter your Score
9. Enter the Game Date
10. Check mark Certified by Head Coach
11. Enter the Officials Registration Number
12. Select a Position
13. Then rate the Official. **Note:** If you give an official a rating of 3 you must select one or more items from the Needs of Improvement section. If you give an official a rating of a 4 or 5 you must provide a written explanation (*The written explanation must be a misapplication of a rule-NOT Judgement Calls*) **and** select one or more items from the Needs of Improvement section
14. Repeat Steps 11-13 until all officials for that contest have been evaluated
15. Click on Save
16. You will return to the Coach Management Page and select Submit Coach's Evaluation of Officials for the next contest.

Coaches must evaluate officials in all contests, meets or matches. Failure to evaluate officials will result in fines, suspension and C&I cards for all school personnel being withheld until all fines are paid.

It is also the coach's responsibility to make sure his/her schedule on the WVSSAC website is correct and updated on a regular basis and at the end of the season. If you have questions or concerns, please contact the WVSSAC at 304-485-5494.

COACHING REMINDERS

Practice: Team members must have 14 practices on 14 separate days - 7 days sports specific if participating in another sport during the same sports season. A student must have 7 days of practice if coming from one sports season into the next sports season without interruption of school days. Only students enrolled in the specific member school and a member of team is allowed to practice. Rule 127-2-13.

Sunday Contests: Contests or practice on Sunday is prohibited. Practice refers to any group or individual meeting to view films or activity associated with the activity of that sports season. Rule 127-3-14.

Physical Exam: Team members must have Athletic Participation/Parental Consent/Physician's Certificate form completed and on file before beginning practice. Rule 127-3-3. (Must be on or after June 1st.)

All-Star Competition: Any student completing athletic eligibility at the end of current school year because of age or completion of semesters of eligibility may play in one (1) all-star game upon conclusion of the season without loss of eligibility for balance of year. Rule 127-3-4.

Awards: Team members can accept awards from school sponsoring a sanctioned event or the school. Wearing apparel, championship rings, equipment, athletic goods that exceeds \$20.00 are prohibited from any source. Rule 127-3-5.

Out of Season Coaching: Coaches may not promote, initiate, organize, supervise or participate in out-of-season events involving students of the same sport as the grade level coaching assignment and preceding grade level except as specified in Rules 127-3-7.2 and 127-3-7.3. Rule 127-3-7.7.

Amateur: Any team member competing for money, receiving any award or prize of monetary value that has not been approved by the WVSSAC, capitalizing on athletic fame or signing a professional playing contract in that sport is prohibited. Rule 127-2-11.

Participation as Ineligible: Any student who participates as ineligible may forfeit eligibility for up to 365 days. Rule 127-2-12.

Non-School Participation: Participation is limited to school teams only with a few exceptions in individual sports provided the school principal approves and no school contests/activities are missed. Participation includes but is not limited to, practice, fund raising, team pictures, tryouts, etc. Rule 127-2-10.

Sanctioning and Travel: A member school shall not enter a contest, tournament, or competition which requires sanctioning until it is approved 30 days prior to the event. Rule 127-3-16.

For complete details regarding the above regulations and those governing team memberships, scholarship, undue influence, age, semester, etc. refer to the **Rules & Regulations Handbook** or at www.wvssac.org.

This is not a comprehensive listing.

§127-2-13. Practice.

13.1. Only students enrolled and eligible to be listed on the eligibility certificate for that sport in the specific member school are allowed to participate in that school's practices. Exceptions - Rules 127-2-3.2, 127-2-3.5 and 127-2-13.6.

13.2. The frequency and length of practice is at the discretion of each member school.

13.3. Member schools of the WVSSAC may practice on any day of the year with the exception of Sunday practice. Rule 127-3-14.2 further clarifies Sunday practice.

13.4. Individual players of a team must have practiced

13.4.a. on 7 SEPARATE days before participating in an interscholastic scrimmage.

13.4.b. on 14 SEPARATE days, exclusive of the day of a contest, before participating in an interscholastic contest. The following sport(s) is exempted from the provisions of this rule: golf.

13.4.c. A student athlete who is absent from practice with their team for non-medical reasons, not under a doctor care, for more than fourteen (14) consecutive days must have the required full fourteen (14) practice days before resuming participation in a contest. Students participating in football must follow the practice progression as set forth in Rule 127-3-23.

13.5. A student shall not be permitted to engage in interscholastic practice until that student has filed with the principal a completed Athletic Participation/Parental Consent/Physician's Certificate Form. Rule 127-3-3 further explains this required form.

13.6. A student academically ineligible may begin practicing 15 school days immediately prior to the date of regaining full eligibility. (All other ineligible students may not practice.)

13.7. If a student has established eligibility in a sport requiring 14 separate days of practice and is continuing to participate in that sport or no school days have lapsed from one sport to another sport in a same season, the student may participate in another sport of the season after completing seven separate days of sport specific practice in the second sport.

13.8. Students participating in a sport(s) in one season must have practiced 14 separate days, exclusive of the day of a contest, to be eligible to participate in a sport in the next season with the following exception: the student has continued to practice or participate in tournament play without an interruption of school days. The student must complete seven separate days of sport specific practice in the second sport.

127-4-3 Code for Interscholastic Athletics

3.7. *Statement of Policy.* Insofar as unsportsmanlike actions by students, school administrators, officials, coaches, faculty members, and spectators are concerned, the identical items under the Sportsmanship Rule along with the following guides will be referred to by the WVSSAC:

3.7.a. The school whose coach behaves in a manner likely to have adverse influence on the attitudes of students or spectators may be provided with the choice of taking disciplinary action against that coach or having the entire school disciplined by the WVSSAC.

3.7.b. Any student who in protest lays hands or attempts to lay hands upon an official may be declared ineligible by the principal or by the WVSSAC for up to one year. Any student who strikes an opponent, coach, or a spectator during or following an athletic event may be declared ineligible by the principal or the WVSSAC for a specified period of time up to one year, depending on the seriousness of the act.

3.7.c. Any coach, student, or bench personnel ejected by an official will be suspended for the remainder of the game, match, meet or contest. The coach, student, or bench personnel ejected by an official will also be suspended in additional contest(s): the suspension will be assessed based upon ten (10) percent of the allowed regular season contests or post season progression in a playoff tournament for each sport. Any tenth of a percentage from .1 to .4 will be a suspension equal to the whole number of the percent. Any tenth from .5 to .9 will be an additional contest added to the whole number. The suspension will include the number of indicated contests in that sport and at that level and all other sport contests in the interim at any level. A second ejection will result in the doubling of the suspension assessed for the first ejection. If an individual is ejected for a third time during the same sport season, the individual will be suspended from participating or coaching for 365 calendar days from the date of ejection. In accordance with rule 127-3-15.3, an individual ejected by an official may not appeal that ejection, or any subsequent suspension that is a consequence of the ejection by an official..

3.7.c.1. Any coach, player or bench personnel who has been ejected shall not be permitted to attend any contest(s) during said suspension. He/she shall not be affiliated with the team in any capacity. This would include but not be limited to transportation to or from the contest, meeting with the team before, during or after said contest. He/she is not permitted to be in sight or sound of said contest venue. Regular practice or team meetings not affiliated with a contest are permitted.

3.7.c.2. If suspensions are imposed to a student or bench personnel at the end of the sport season and no contest remains, the suspension is carried over to that particular sport until the next school year. In the case of a senior student, the penalty will continue to the next WVSSAC sponsored sport.

3.7.c.3. Any coach suspension that cannot be enforced during the sport season in which the ejection occurs will be enforced at the beginning of the next season of that same sport.

3.7.d. In case of spectators physically molesting an official, administrator, coach, or student, the school may be given one of two options: 1) file charges against the offender (s) or 2) accept discipline from the WVSSAC. Any person found guilty of W.Va. Code §61-2-15(a) Assault, Battery on Athletic Officials, while these individuals are working or as a result of working an athletic contest, shall be banned from all WVSSAC athletic events for a minimum of 365 days from the date of being found guilty. The school filing charges shall notify the WVSSAC of the incident and outcome of any legal action.

3.7.e. The school that does not lend complete cooperation in the host school's effort to promote the spirit of good sportsmanship may be disciplined by the WVSSAC.

3.7.f. A coach may be considered as committing unsportsmanlike conduct if they make degrading remarks about officials during or after a game either on the field of play, from the bench, or through any public news media, argues with officials, or goes through motions indicating dislike for a decision, protests the decision and actions of officials pertaining to the game during and after the contest, or detains the official on the field of play following a game to request a ruling or explanation of some phase of the game. If a coach feels he/she has a legitimate criticism of a penalty call or a request for a rule interpretation, such criticism or request should be made in the privacy of the coach's office or the official's quarters and should be made in a courteous manner.

3.7.g. A student or team attendant shall not leave the bench area, team box area, or their designated off-field area during a game or contest other than during that time permitted by game or contest rules. A coach shall not leave the bench area, team box area, or the designated off-field area during a game or contest other than during that time permitted by game or contest rules unless a student altercation is taking place and the official requests assistance. Violation of this rule shall cause the coach, student, or team attendant to be immediately ejected from the contest, team penalized according to game or contest rules and that coach, student, or team attendant will not be eligible to participate in the next contest as outlined in §127-4-2.3.

3.8. *Procedure.* Unsportsmanship action must be reported in detail to the WVSSAC. A copy of the complaint must also be filed with the principal of the school involved. Each principal involved shall report such information or answers to the report as they deem appropriate. Upon receipt of all reports, the Executive Director and/or the Board of Directors of the WVSSAC shall investigate and adjudicate such reports in accordance with the powers afforded in §127-1-8.6 and 8.7 and §127-1-12.2 and 12.3 of the Constitution. Penalties up to and including suspension of member schools may be made in accordance with §127-4.

3.9. The following defines the different types of disciplinary action which may be assessed for violation of any WVSSAC rule by a member school, administrator, coach, athlete or contest official:

3.9.a. *Warning.* A warning may be given by the Executive Director or Assistant Executive Director. It is official notice that an inexcusable, unethical, or unsportsmanship action has occurred, is a matter of record, and that such an occurrence must not be repeated.

3.9.b. *Probation.* Probation is a much more severe type of warning and may be expressed two ways: 1) a school, coach, student, or team attendant on probation is told that further violations will lead to a fine or suspension; and/or 2) a school on probation is on conditional WVSSAC membership but may engage in its regular schedule, sanctioned events, and all WVSSAC tournament play, providing a program is filed with the Executive Director of the WVSSAC indicating measures to be taken to alleviate this problem which caused the school to be placed on probation.

3.9.c. *Suspension.* A school/coach suspended from the WVSSAC may not meet in interscholastic competition of any kind with a WVSSAC member school or a school that is a member of another state associated with the National Federation of State High School Associations.

3.9.d. *Fine.* A fine may be levied by the Executive Director.

3.9.e. Each of these sanctions (Warning, Probation, suspension and Fine) may be imposed or levied separately, or in a combination of one or more sanctions.

3.10 *Appeals.* All cases involving disciplinary action against member schools, coaches, students, team attendants, or officials may be protested in accordance with §127-6. However, disciplinary action imposed by an official, including disciplinary action that is a consequence of a decision by an official, such as a suspension for an additional game or games as a consequence of an ejection, is governed by rule 127-3-15.3 and is not subject to appeal.

3.11 *Review of Ejections.* Disciplinary action imposed by a contest official, including disciplinary action that results in a suspension for an additional game or games as a consequence of an ejection, is not subject to appeal pursuant to Rule §127-6. However, if the individual ejected believes the ejection was improper, he/she may request a review of the ejection by his/her principal. If the principal believes there is merit in the requested review, the principal shall complete and submit the WVSSAC Ejection Review Form within 24 hours or the next business day of the ejection to the Executive Director of the WVSSAC. If a review is properly requested, the WVSSAC will review the officials' special report, the WVSSAC Ejection Review Form, and such other information as the WVSSAC deems appropriate. Upon review, the WVSSAC Executive Director or the designated Assistant Director will either sustain the ejection and any consequent suspension(s), or will determine the ejection was improper and void any consequent suspension(s). A decision by the WVSSAC upon reviewing an ejection is not subject to appeal pursuant to Rule §127-6.

WVSSAC

Return to Play (RTP) Protocol

An athlete removed from a contest that shows signs/symptoms of a concussion shall be immediately evaluated by an appropriate health care professional. If no appropriate health care professional is available, the athlete shall not be allowed to RTP.

When the athlete is evaluated by the appropriate health care professional, if it is determined the athlete has suffered a concussion, the athlete shall not be permitted to RTP the same day as the concussion. If it is determined by the appropriate health care professional that the athlete did not suffer a concussion, the athlete may be returned to play as deemed appropriate by the health care professional.

RTP shall be delayed until athlete is asymptomatic and has undergone a progression of tests to determine if they are able to RTP. **Each step / test in the progression takes 24 hours (1 per day).**

The progression shall follow: (Neuro-cognitive testing is strongly recommended.)

- No activity with complete physical and cognitive rest
- Light aerobic exercise (less than 70% of maximum heart rate)
- Sport specific exercise (drills specific to the athlete's sport)
- Non-contact training drills (more intense sport drills with no contact from other players)
- Full participation practice (following written medical clearance)
- Return to Play (normal game play)

If any symptoms occur during the progression, the athlete should drop back to the previous level and try to complete that level after 24 hour rest period.

Appropriate Health Care Professional

Note: Any of the following who have appropriate training in the evaluation and management of head injuries.

- Medical Doctor (MD)
- Doctor of Osteopathy (DO)
- Doctor of Chiropractic (DC)
- Advanced Registered Nurse Practitioner (ARNP)
- Physician Assistant (PA-C)
- Registered Certified Athletic Trainers (ATC/R)

Concussions

WVSSAC Policy and 2013 Legislation - Senate Bill 336

Based upon the recommendation of the Sports Medicine Advisory Committee, the Board of Directors approved the following at it's June, **2016** meeting.

- 1) **ALL COACHES** will be required to annually complete the NFHS Concussion Course.
- 2) The principal shall monitor and maintain appropriate records regarding completion of the course.
- 3) **ANY COACH** that does not complete the NFHS Concussion Course annually will not be permitted to coach until the course has been completed.
- 4) Make concussion information available to parents and athletes.
 - Physical Form
 - CDC Letter
 - Parents Guide to Concussion in Sports
- 5) Return to Play protocol (RTP)- Must have written permission to RTP from a health care professional with training in the evaluation of head injuries.
- 6) WVSSAC Concussion Report - Required submission to school administration. Report must be submitted to Dr. Dan Martin within 30 days of injury.

Information/directions regarding the NFHS Concussion Course may be found at www.nfhslearn.com.

Additional information regarding concussions may be found on the Sports Medicine tab at the WVSSAC website. (www.wvssac.org)

A Parent's Guide to Concussion

National Federation of State High School Associations (NFHS)
Sports Medicine Advisory Committee (SMAC)

What is a concussion?

- A concussion is a brain injury which results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull, typically from a blow to the head or body. An athlete does not need to lose consciousness (be “knocked-out”) to suffer a concussion, and in fact, less than ten percent of concussed athletes suffer loss of consciousness.

Concussion Facts

- A concussion is a type of traumatic brain injury. The result is a more obvious functional problem than a clear structural injury, causing it to be invisible to standard medical imaging (CT and MRI scans).
- It is estimated that over 140,000 high school athletes across the United States suffer a concussion each year. (Data from NFHS Injury Surveillance System)
- Concussions occur most frequently in football, but boys' ice hockey, boys' lacrosse, girls' soccer, girls' lacrosse and girls' basketball follow closely behind. All athletes are at risk.
- A concussion may cause multiple symptoms. Many symptoms appear immediately after the injury, while others may develop over the next several days or weeks. The symptoms may be subtle and are often difficult to fully recognize.
- Concussions can cause symptoms which interfere with school, work, and social life.
- Concussion symptoms may last from a few days to several months.
- An athlete should not return to sports or physical activity like physical education or working-out while still having symptoms from a concussion. To do so puts them at risk for prolonging symptoms and further injury.

What should I do if I think my child has had a concussion?

If an athlete is suspected of having a concussion, he or she must be immediately removed from that activity. Continuing to play or work out when experiencing concussion symptoms can lead to worsening of symptoms, increased risk for further injury and possibly death. Parents and coaches are not expected to be able to make the diagnosis of a concussion. A medical professional trained in the diagnosis and management of concussions will determine the diagnosis. However, you must be aware of the signs and symptoms of a concussion. If you are suspicious your child has suffered a concussion, he or she must stop activity right away and be evaluated:

When in doubt, sit them out!

All student-athletes who sustain a concussion need to be evaluated by a health care professional who is experienced in concussion management. You should call your child's physician and explain what has happened and follow your physician's instructions. If your child is vomiting, has a severe headache, is having difficulty staying awake or answering simple questions, he or she should be immediately taken to the emergency department.

What are the signs and symptoms of a concussion?

SIGNS OBSERVED BY PARENTS, FRIENDS, TEACHERS OR COACHES	SYMPTOMS REPORTED BY ATHLETE
Appears dazed or stunned	Headache
Is confused about what to do	Nausea
Forgets plays	Balance problems or dizziness
Is unsure of game, score, or opponent	Double or fuzzy vision
Moves clumsily	Sensitivity to light or noise
Answers questions slowly	Feeling sluggish
Loses consciousness	Feeling foggy or groggy
Shows behavior or personality changes	Concentration or memory problems
Can't recall events prior to hit	Confusion
Can't recall events after hit	

When can an athlete return to play following a concussion?

After suffering a concussion, **no athlete should return to play or practice on that same day.** Previously, athletes were allowed to return to play if their symptoms resolved within 15 minutes of the injury. Studies have shown that the young brain does not recover quickly enough for an athlete to safely return to activity in such a short time.

Concerns over athletes returning to play too quickly have led state lawmakers in almost all states to pass laws stating that **no player shall return to play that day following a concussion, and the athlete must be cleared by an appropriate health-care professional before he or she is allowed to return to play in games or practices.** The laws typically also mandate that players, parents and coaches receive education on the dangers and recognizing the signs and symptoms of concussion.

Once an athlete no longer has symptoms of a concussion and is cleared for return to play, he or she should proceed with activity in a step-wise fashion to allow the brain to re-adjust to exertion. On average, the athlete will complete a new step each day. An example of a typical return-to-play schedule is shown below:

- Day 1: Light exercise, including walking or riding an exercise bike. No weight-lifting.
- Day 2: Running in the gym or on the field. No helmet or other equipment.
- Day 3: Non-contact training drills in full equipment. Weight-training can begin.
- Day 4: Full contact practice or training.
- Day 5: Game play.

If symptoms occur at any step, the athlete should cease activity and be re-evaluated by their health care provider.

How can a concussion affect schoolwork?

Following a concussion, many student-athletes will have difficulty in school. These problems may last from days to months and often involve difficulties with short- and long-term memory, concentration and organization.

In many cases after the injury, it is best to decrease the athlete's class load early in the recovery phase. This may include staying home from school for a few days, followed by academic accommodations (such as a reduced class schedule), until the athlete has fully recovered. Decreasing the stress on the brain and not allowing the athlete to push through symptoms will shorten the recovery time.

What can I do?

- Both you and your child should learn to recognize the "Signs and Symptoms" of concussion as listed above.
- Teach your child to tell the coaching staff if he or she experiences such symptoms.
- Emphasize to administrators, coaches, teachers and other parents your concerns and expectations about concussion and safe play.
- Teach your child to tell the coaching staff if he or she suspects that a teammate has suffered a concussion.
- Ask teachers to monitor any decrease in grades or changes in behavior that could indicate a concussion.
- Report concussions that occurred during the school year to appropriate school staff. This will help in monitoring injured athletes as they move to the next season's sports.

Other Frequently Asked Questions

Why is it so important that athletes not return to play until they have completely recovered from a concussion?

Student-athletes that return to any activity too soon (school work, social activity or sports activity), can cause the recovery time to take longer. They also risk recurrent, cumulative or even catastrophic consequences, if they suffer another concussion. Such risk and difficulties are prevented if each athlete is allowed time to recover from his or her concussion and the return-to-play decisions are carefully and individually made. No athlete should return to sport or other at-risk activity when signs or symptoms of concussion are present and recovery is ongoing.

Is a "CAT scan" or MRI needed to diagnose a concussion?

Diagnostic testing, which includes CT ("CAT") and MRI scans, are rarely needed following a concussion. While these are helpful in identifying life-threatening head and brain injuries (skull fractures, bleeding or swelling), they are currently insensitive to concussive injuries and do not aid in the diagnosis of concussion. Concussion diagnosis is based upon the athlete's story of the injury and a health care provider's physical examination and testing.

What is the best treatment to help my child recover quickly from a concussion?

The best treatment for a concussion is rest. There are no medications that can help speed the recovery. Exposure to loud noises, bright lights, computers, video games, television and phones (including text messaging) may worsen the symptoms of a concussion. You should allow your child to rest as much as possible in the days following a concussion. As the symptoms lessen, you can allow increased use of computers, phone, video games, etc., but the access must be lessened or eliminated, if symptoms worsen.

How long do the symptoms of a concussion usually last?

The symptoms of a concussion will usually go away within 2–3 weeks of the initial injury. You should anticipate that your child will likely be out full participation in sports for about 3-4 weeks following a concussion. However, in some cases symptoms may last for many more weeks or even several months. Symptoms such as headache, memory problems, poor concentration, difficulty sleeping and mood changes can interfere with school, work, and social interactions. The potential for such long-term symptoms indicates the need for careful management of all concussions.

How many concussions can an athlete have before he or she should stop playing sports?

There is no “magic number” of concussions that determine when an athlete should give up playing contact or collision sports. The circumstances that surround each individual injury, such as how the injury occurred and the duration of symptoms following the concussion, are very important and must be individually considered when assessing an athlete’s risk for and potential long-term consequences from incurring further and potentially more serious concussions. The decision to “retire” from sports is a decision best reached after a complete evaluation by your child’s primary care provider and consultation with a physician or neuropsychologist who specializes in treating sports concussions.

I’ve read recently that concussions may cause long-term brain damage in professional football players. Is this a risk for high school athletes who have had a concussion?

The issue of “chronic traumatic encephalopathy (CTE)” in former professional players has received a great deal of media attention lately. Very little is known about what may be causing these dramatic abnormalities in the brains of these unfortunate players. At this time we do not know the long-term effects of concussions (or even the frequent sub-concussive impacts) which happen during high school athletics. In light of this, it is important to carefully manage every concussion and all concussion-like signs and symptoms on an individual basis.

Some of this information has been adapted from the CDC’s “Heads Up: Concussion in High School Sports” materials by the NFHS’s Sports Medicine Advisory Committee. Please go to www.cdc.gov/ncipc/tbi/Coaches_Tool_Kit.htm for more information.

DISCLAIMER – NFHS Position Statements and Guidelines

The NFHS regularly distributes position statements and guidelines to promote public awareness of certain health and safety-related issues. Such information is neither exhaustive nor necessarily applicable to all circumstances or individuals, and is no substitute for consultation with appropriate health-care professionals. Statutes, codes or environmental conditions may be relevant. NFHS position statements or guidelines should be considered in conjunction with other pertinent materials when taking action or planning care. The NFHS reserves the right to rescind or modify any such document at any time.

Concussion Course Required

All **Coaches** are required to take the free course “Concussion in Sports” annually.

If the **Coach** took the course last year, he/she **MUST** take the course again before they are permitted to coach.

You must go through the purchase/checkout process for the free course in order to get credit for the current year and to be able to print the certificate.

All **New Coaches** must take the course now. Follow the directions “**New to NFHS Learn? Register Now**” on www.nfhslearn.com

Concussion in Sports - What You Need to Know Ordering Information at www.nfhslearn.com

Steps to access the FREE course:

1. Go to www.nfhslearn.com
2. Sign in with your e-mail and password if you have previously registered.
3. If you need to register, it will only take a couple of minutes. All users at www.nfhslearn.com must be registered with a unique e-mail address and password.
4. Toward the upper left-hand part of the screen , you will see the “Click to Access This Free Course” for “**Concussion in Sports — What You Need to Know.**”
5. You can order licenses as an individual to take the course yourself OR you can purchase courses in bulk if you intend to distribute the courses to others (there is a limit of 99 licenses per any one order).
6. Note: You will need to click on “Save” once you have put the course(s) in your cart and before you can proceed to Checkout.
7. As you go through the process you will see that you are using the “purchasing process” that is standard for NFHS Coach Education courses. You are not being charged anything for the Concussion courses. You do have the ability to order other courses at the same time, and you will be asked for payment for those.
8. You can then start the course if you ordered as an individual or begin distributing the licenses if you ordered in bulk.
9. If necessary, refer to the form regarding distributing bulk licenses. It can be found in the Locker Room at www.nfhslearn.com.

The online concussion course is offered at no cost to the user. Once you have finished, you will be added to the database as having completed the course. The name of the individual completing the course will appear in the “Coach Search” feature as having completed this course along with any other courses completed at www.nfhslearn.com.

RECRUITING REGULATIONS

If a coach is contacted by a student, his/her parents, or anyone else regarding a student athlete transferring to his/her district, the coach shall refer the individual(s) to a school administrator in the district immediately. A coach cannot discuss the matter with the student or anyone else for that matter and should not even listen when the subject is brought up concerning students transferring to his/her school. School coaches working or coaching in outside school leagues and camps should be warned that a potential problem exists if a student later enrolls at the school where the coach is employed. The school administrator, after being notified by the coach that a prospective student athlete has approached the coach about possibly playing for his/her school team, should contact the WVSSAC office immediately. Seriously or jokingly telling a student that you would like for that athlete to play for you or your team shall be considered recruiting. Rules regarding individuals who engage in recruiting shall not be restricted specifically to school personnel.

Approved by the Board of Appeals
October 1998

GUIDELINES FOR SUSPENDED COACH/PLAYER

A coach or player who is ejected from a contest shall be suspended for the remainder of the game, match, meet or contest. An ejected coach shall exit the playing arena (out of sight and sound of the venue) as well as the team and bench areas. If there is not another person hired by the board of education to coach that sport or a professional from that school present to take his/her place, the contest shall be forfeited. Because of supervision and liability, an ejected athlete shall sit on the bench and shall not cause nor participate in any further problems. Furthermore, a coach or player shall not be permitted to attend subsequent contests of the suspension. He/she shall not be formally affiliated with the team in any capacity. This would include but not be limited to transportation to or from the contest, meeting with the team before, during or after the contest, wearing a uniform, or sitting in the bench or team area. Regular practice or team meetings not affiliated with a contest will not fall under this policy.

SPECTATOR SUPPORT INFORMATION FOR TOURNAMENTS

The following sport support information is provided for each specified sport. **ONLY** those items marked with "Yes" are allowed during tournament play (sectional, regional, and state). It is recommended that schools follow these regulations during regular season play.

Vocal cheering and support from team bench areas are encouraged; however, the items indicated on this page are for use by spectators. Schools must stress **GOOD SPORTSMANSHIP** when allowing any item to be used. All items must be for support of your team and not directed against the opponent.

WEST VIRGINIA SECONDARY SCHOOL ACTIVITIES COMMISSION
2875 STAUNTON TURNPIKE, PARKERSBURG, WV 26104

BODY FLUID HANDLING PROCEDURES

PURPOSE

The West Virginia Secondary School Activities Commission has adopted this policy in an effort to minimize the possibility of transmission of any infectious disease during a high school athletic practice or contest. The policy primarily addresses blood-borne pathogens such as Hepatitis B virus and the Human Immunodeficiency Virus (HIV). However, it also discusses common-sense precautions against the spread of less serious contagions such as the Influenza virus and the Common Cold virus. Much of this policy has been written with contact sports such as football, wrestling, and basketball in mind. However, it is applicable for all sports.

BLOOD-BORNE PATHOGENS

Blood-Borne pathogens such as Hepatitis B and HIV are serious infectious diseases which are present in blood as well as other bodily fluids; such as semen, vaginal secretions and breast milk. While there are a number of other such blood-borne diseases, Hepatitis B and HIV are the most commonly known.

Hepatitis B is a virus which results in a dangerous inflammation of the liver. Its victims suffer long-term consequences and reoccurrences, and the disease can be deadly if not treated. HIV is the virus that causes Acquired Immunodeficiency Syndrome (AIDS), which weakens the immune system, thus making a person susceptible to infections their immune systems would normally fight off.

The precise risk of HIV transmission during exposure of open wounds or mucous membranes such as the eyes, ears, nose, and mouth to contaminated blood is not known. However, evidence would suggest it is extremely low. In fact, the possibility of contracting HIV in this manner is much less than the possibility of contracting Hepatitis B and other blood-borne viral infections.

Therefore, student athletes, coaches, and officials must understand that while it is possible for HIV to be transmitted by blood from one individual to another through an open wound or a mucous membrane, the probability is very low. However, since the chance of this occurring is not zero, the appropriate precautions should be taken to ensure no transmission can occur.

PRECAUTIONS AGAINST TRANSMISSION OF BLOOD-BORNE PATHOGENS

The proper handling of body fluid spills should be a concern of teachers, coaches, officials, and student athletes. All concerned individuals must be aware that any time there is blood and/or other body fluids present, there is the possibility of an infectious disease being present. However this possibility can be nearly eliminated if the following precautions are observed.

General Procedures:

- 1) Wear latex or vinyl disposable exam gloves before making contact with body fluids during care, treatment, and cleaning procedures.
- 2) Discard gloves after each use.
- 3) Wash hands after handling any body fluids, whether or not gloves are worn.
- 4) Discard disposal items in plastic lined containers with lids. Close bags and discard daily.
- 5) Do not reuse plastic bags.
- 6) Use disposable items to handle body fluids whenever possible.
- 7) Use paper towels to pick up and discard any solid waste materials such as vomitus and feces.

Procedures for Activities:

- 1) All athletes must cover any open wound.
- 2) Student athletes should treat and cover their own wounds whenever possible.
- 3) When administering first aid, disposable rubber gloves should be worn. A different pair of gloves should be worn for each treatment administered.
- 4) If an individual gets someone else's blood on his/her skin, the area should be washed with soap and water and wipe the area with disinfectant, such as isopropyl alcohol.
- 5) If a student athlete begins to bleed during activity, play must be stopped, the student athlete who is injured removed, and any potentially contaminated surfaces cleaned using a disinfectant. The surface should be wiped with clean water.
- 6) Any student athlete that is removed must have the wound covered and the bleeding stopped, prior to returning to contest.
- 7) Any individual who has treated a wound or cleaned a contaminated surface should wash his/her hands with soap and warm water.
- 8) A student athlete should take a shower using a liberal amount of soap and warm water following the contest.
- 9) Towels, which are used by athletes, coaches, or officials should not be used to clean off any potentially contaminated surfaces.
- 10) All soiled linens such as towels and uniforms should be washed in hot water and in a detergent containing bleach, if possible.
- 11) If a coach or an official gets blood on them they should first wash the area with warm water and soap, and then wipe the area with a disinfectant such as isopropyl alcohol.
- 12) All coaches, athletes, and officials should practice good hygiene. Towels, cups, and water bottles should not be shared.
- 13) Keeping locker rooms and other areas well ventilated and clean can also help in preventing other air-borne contagions from being transmitted.

MEASURES FOR PREVENTING STAPHYLOCOCCAL SKIN INFECTIONS AMONG SPORTS PARTICIPANTS

Centers for Disease Control Recommendations for School Athletic Teams

1 Cover all wounds. If a wound cannot be covered adequately, consider excluding players with potentially infectious skin lesions from practice or competitions until the lesions are healed or can be covered adequately.

2 Encourage good hygiene, including showering and washing with soap after all practices and competitions.

3 Ensure availability of adequate soap and hot water

4 Discourage sharing of towels and personal items (e.g., clothing or equipment).

5 Establish routine cleaning schedules for shared equipment.

6 Train athletes and coaches in first aid for wounds and recognition of wounds that are potentially infected.

7 Encourage athletes to report skin lesions to coaches and encourage coaches to assess athletes regularly for skin lesions.

West Virginia Department of Health and Human Resources

Information for the Public -

Methicillin Resistant *Staphylococcus aureus* (MRSA)

What is *Staphylococcus aureus*?

Staphylococcus aureus, or Staph, is a bacteria that lives on the skin or in the nose of healthy people. Occasionally, staph can cause infections of the skin, bloodstream, lungs, bones, joints, heart, or almost any part of the body.

What is methicillin resistant *Staphylococcus aureus* (MRSA)?

MRSA (pronounced 'mursa') is a type of staph that has become resistant to some common antibiotics. This means that an infection with MRSA is more difficult to treat.

Where are staph and MRSA found?

Staph and MRSA may be found on the skin or in the nose. About 30 to 50% of people may carry the staph bacteria on their skin without getting ill.

How common is MRSA?

In many communities, including some in West Virginia, MRSA is now the most common cause of skin infections due to 'staph.' According to some studies, 1 to 10% of people now carry MRSA in their nose or on their skin.

Who is most at risk for staph infections?

While anyone can get an infection with staph, certain persons are more at risk. These people include diabetics, people on dialysis, persons who use injection drugs, people who have recently had surgery, and persons with chronic diseases such as cancer. Staph infections are also more common in persons who have a tube going into their body (such as a urinary catheter or intravenous (IV) catheter).

MRSA infections are more likely in persons who have recently received antibiotics or recently been in a hospital or nursing home. In the last few years, MRSA infections have also been identified in persons outside of hospitals. Cases of MRSA disease in the community are associated with recent antibiotic use, sharing contaminated items, active skin disease, and living in crowded settings. Outbreaks have occurred on sports teams, in jails or military units, camps and even hospital wards. Community associated MRSA infections are usually skin infections; however, severe illness can also occur.

Are staph and MRSA infections treatable?

Yes, staph infections are treatable. Skin infections can usually be treated with oral antibiotics. MRSA infections are usually treatable, but they may be more difficult to treat. The doctor will have to get a laboratory test to tell the difference between MRSA and staph.

How are staph and MRSA spread?

Staph and MRSA can spread among people by close physical contact. Spread may also occur by touching objects, such as towels, sheets, clothes, work-out areas and sports equipment contaminated by the skin of a person with MRSA or staph.

How can I prevent staph or MRSA infections?

- Keep your hands clean by washing thoroughly with soap and water. Alcohol-based hand cleansers also help.
- Keep cuts and wounds clean and covered with a dressing until healed. Avoid contact with other peoples= wounds.
- Avoid sharing towels, clothing, sports equipment, deodorant, cosmetics and other personal items.
- Only take antibiotics if you really need them. Antibiotics do not work for a cold, the flu or other viral infections. When a doctor prescribes antibiotics, take them as directed.

Requirements for 2018-19 NFHS free course “Sudden Cardiac Arrest” is required for all coaches to complete one time. Also, all coaches are required to complete the NFHS free course **“Heat Illness Prevention”** one time. Schools are to maintain appropriate records.

**WEST VIRGINIA SECONDARY SCHOOL ACTIVITIES COMMISSION
WVSSAC Sports Medicine Committee**

Heat Acclimatization and Heat Illness Prevention Position Statement

Although deaths from heat illness are rare, constant surveillance and education of our student athletes and coaches is necessary in order to maintain the safety and health of our students and coaches. Students participating in high-intensity, long-duration or repeated same-day sports practices and training activities during times of high heat and/or humidity may be at risk.

Following the recommended guidelines and procedures as established by the WVSSAC Sports Medicine Committee can reduce the risk and incidence of heat illnesses and the resulting deaths and injuries in high and middle school athletics. The Sports Medicine Committee and WVSSAC Board of Directors recognize the importance of our coaches and other individuals responsible for supervising our students. They have the ultimate responsibility for the health and welfare of those students under their care.

It is required by SB40 that each member school have a written Emergency Action Plan for practice and games to deal with emergencies related to injury or illness to a student athlete. The plan should include involvement of local rescue agencies, medical doctors, hospitals and local law enforcement agencies.

National Federation of State
High School Associations

EAS
SPORTS NUTRITION

Heat Illness Prevention

Exertional heat stroke is the leading cause of preventable death in high school athletics. Exertional heat stroke also results in thousands of emergency room visits and hospitalizations throughout the nation each year. This free course, brought to you by EAS Sports Nutrition, a division of Abbott Labs, is designed to give you the critical information you need to minimize the risk of exertional heat stroke among your athletes. The course presents seven fundamentals, which when followed, will minimize heat related illnesses of the students who participate.

Course Objectives

- Recognize that Exertional Heatstroke (EHS) is the leading preventable cause of death among athletes
- Know the importance of a formal pre-season heat acclimatization plan
- Know the importance of having and implementing a specific hydration plan, keeping your athletes well-hydrated, and providing ample opportunities for, and encouraging, regular fluid replacement

Units

- Fundamentals
 1. Start Slow, Then Progress
 2. Allow for Individual Conditioning
 3. Adjust Intensity and Rest
 4. Start Sessions Adequately Hydrated
 5. Recognize Signs Early
 6. Recognize More Serious Signs
 7. Have an Emergency Action Plan

More

- Unlimited access to course & resources for one year from date of purchase
- FREE Course
- Use as an elective to fulfill  certification requirements
- Approved by NFHS for 1 course clock hour

CAUTION
 EXTREME CAUTION
 DANGER

Source: National Weather Service

STA

- 91 degrees Heat Index or under
- All Sports:
 - Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 - Optional water breaks every 30 minutes.
 - Ice-down towels for cooling.
 - Watch/monitor athletes carefully for necessary action.

- 104 degrees to 125 degrees Heat Index
- All Sports:
 - Same as above plus; Alter uniform by removing items if possible.
 - Allow for changes to dry t-shirts and shorts.
 - Reduce time of outside activity as well as indoor activity if air conditioning is unavailable.
 - Postpone practice to later in the day.
 - Suspend practice, or remove equipment and decrease practice intensity for sports and activities where additional equipment is required for contact or safety.

- 92 degrees to 103 degrees Heat Index
- All Sports:
 - See above plus; Contact sports and activities with additional equipment (ie), helmets and other possible equipment removed if not involved in contact.
 - Increase water breaks; a minimum every 30 minutes.
 - Reduce time of outside activity. Consider postponing practice to later in the day.
 - *Re-check temperature and humidity every 30 minutes to monitor for increased Heat Index.

- **Above 125 degrees Heat Index**
- All Sports:
 - ***Suspend all outside activity in practice and/or play, and stop all inside activity if air conditioning is unavailable.***
 - **Re-evaluate before resuming activities.**

HEADS+UP CONCUSSION IN HIGH SCHOOL SPORTS

A FACT SHEET FOR **PARENTS**

What is a concussion?

A concussion is a type of traumatic brain injury. Concussions are caused by a bump or blow to the head. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious.

You can’t see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion, or if you notice the symptoms yourself, seek medical attention right away.

What are the signs and symptoms of a concussion?

If your child has experienced a bump or blow to the head during a game or practice, look for any of the following signs of a concussion:

SYMPTOMS REPORTED BY ATHLETE	SIGNS OBSERVED BY PARENTS/GUARDIANS
<ul style="list-style-type: none"> • Headache or “pressure” in head • Nausea or vomiting • Balance problems or dizziness • Double or blurry vision • Sensitivity to light • Sensitivity to noise • Feeling sluggish, hazy, foggy, or groggy • Concentration or memory problems • Confusion • Just “not feeling right” or “feeling down” 	<ul style="list-style-type: none"> • Appears dazed or stunned • Is confused about assignment or position • Forgets an instruction • Is unsure of game, score, or opponent • Moves clumsily • Answers questions slowly • Loses consciousness (even briefly) • Shows mood, behavior, or personality changes

How can you help your child prevent a concussion or other serious brain injury?

- Ensure that they follow their coach’s rules for safety and the rules of the sport.
- Encourage them to practice good sportsmanship at all times.
- Make sure they wear the right protective equipment for their activity. Protective equipment should fit properly and be well maintained.
- Wearing a helmet is a must to reduce the risk of a serious brain injury or skull fracture.
 - However, helmets are not designed to prevent concussions. There is no “concussion-proof” helmet. So, even with a helmet, it is important for kids and teens to avoid hits to the head.

What should you do if you think your child has a concussion?

SEEK MEDICAL ATTENTION RIGHT AWAY. A health care professional will be able to decide how serious the concussion is and when it is safe for your child to return to regular activities, including sports.

KEEP YOUR CHILD OUT OF PLAY. Concussions take time to heal. Don’t let your child return to play the day of the injury and until a health care professional says it’s OK. Children who return to play too soon—while the brain is still healing—risk a greater chance of having a repeat concussion. Repeat or later concussions can be very serious. They can cause permanent brain damage, affecting your child for a lifetime.

TELL YOUR CHILD’S COACH ABOUT ANY PREVIOUS CONCUSSION. Coaches should know if your child had a previous concussion. Your child’s coach may not know about a concussion your child received in another sport or activity unless you tell the coach.

If you think your teen has a concussion:
Don’t assess it yourself. Take him/her out of play.
Seek the advice of a health care professional.

It’s better to miss one game than the whole season.

For more information, visit www.cdc.gov/Concussion.

WVSSAC CONCUSSION REPORT - 2018-2019

SCHOOL _____

Person completing this report _____

Position _____

Date _____ (this date must be within 30 days of the injury)

Is this the initial concussion report? yes _____ no _____

or an updated report? yes _____ no _____

Grade _____ Age _____ Female _____ Male _____

Please indicate the sport of this athlete with an X in the appropriate box.

Baseball	Basketball	Cheerleader	Cross-Country	Football	Golf	Soccer
Softball	Swimming	Tennis	Track	Volleyball	Wrestling	

Date concussion occurred: _____

Activity when concussion occurred: Practice _____ Scrimmage _____ Game _____

Who initially evaluated this athlete? (By title/role – no name; athletic trainer, EMT, coach, etc)

Initial steps included?

Transport by EMS _____

Referral to parents to seek follow up evaluation _____

Referral to team physician _____

Other _____

Date athlete was cleared to return to practice and play: _____

Who cleared the athlete to return:

Physician _____ Chiropractor _____ Nurse Practitioner _____

Physician Assistant _____ Athletic Trainer (ATC/R) _____

Was this in a written document? _____ (keep this document on file at the school)

(if athlete is not cleared to return in 30 days the initial report must be submitted and then a follow up report must be submitted listing the return to play date.)

Form is to be sent to Dr. Dan Martin, ATC/R.

FAX: 304-473-8112 or email to 'martin_d1@wvwc.edu'

Any questions please contact the WVSSAC or Dr. Martin (473-8103 or email)

W V S S A C

SUDDEN CARDIAC ARREST AWARENESS

All coaches are required to complete the NFHS Sudden Cardiac Arrest Awareness course one time.

What is Sudden Cardiac Arrest?

- Occurs suddenly and often without warning.
- An electrical malfunction (short-circuit) causes the bottom chambers of the heart (ventricles) to beat dangerously fast (ventricular tachycardia or fibrillation) and disrupts the pumping ability of the heart.
- The heart cannot pump blood to the brain, lungs and other organs of the body.
- The person loses consciousness (passes out) and has no pulse.
- Death occurs within minutes if not treated immediately.

What are the symptoms/warning signs of Sudden Cardiac Arrest?

- SCA should be suspected in any athlete who has collapsed and is unresponsive
- Fainting, a seizure, or convulsions during physical activity
- Dizziness or lightheadedness during physical activity
- Unusual fatigue/weakness
- Chest pain
- Shortness of breath
- Nausea/vomiting
- Palpitations (heart is beating unusually fast or skipping beats)
- Family history of sudden cardiac arrest at age <50

ANY of these symptoms/warning signs may necessitate further evaluation from your physician before returning to practice or a game.

What causes Sudden Cardiac Arrest?

- Conditions present at birth (inherited and non-inherited heart abnormalities)
- A blow to the chest (Commotio Cordis)
- An infection/inflammation of the heart, usually caused by a virus. (Myocarditis)
- Recreational/Performance-Enhancing drug use.
- Other cardiac & medical conditions / Unknown causes. (Obesity/Idiopathic)

What are ways to screen for Sudden Cardiac Arrest?

- The American Heart Association recommends a pre-participation history and physical which is mandatory annually in West Virginia.
- Always answer the heart history questions on the student Health History section of the WVSSAC Physical Form completely and honestly.
- Additional screening may be necessary at the recommendation of a physician.

What is the treatment for Sudden Cardiac Arrest?

- Act immediately; time is critical to increase survival rate
- Activate emergency action plan
- Call 911
- Begin CPR
- Use Automated External Defibrillator (AED)

Where can one find additional information?

- Contact your primary health care provider
- American Heart Association (www.heart.org)

Courts Recognize A Coach Has Ten Legal Duties

1. Properly plan the activity
2. Provide proper instruction
3. Warn of inherent risks
4. Provide a safe physical environment
5. Provide adequate and proper equipment
6. Match your athletes appropriately
7. Evaluate athletes for injury or incapacity
8. Supervise the activity closely
9. Provide appropriate emergency assistance
10. Protect against physical and psychological harm from others

DON'T LET AN INJURY LEAD TO AN OPIOID ADDICTION

2 MILLION ATHLETES ARE EXPECTED TO SUFFER A SPORTS INJURY THIS YEAR

MANY OF THESE ATHLETES WILL BE PRESCRIBED OPIOID PAINKILLERS

75% OF HIGH SCHOOL HEROIN USERS STARTED WITH PRESCRIPTION OPIOIDS

HIGH SCHOOL ATHLETES ARE AT RISK OF BECOMING ADDICTED TO PRESCRIPTION DRUGS

- 28.4% used medical opioids at least once over a three year period.
- 11% of high school athletes have used an opioid medication for nonmedical reasons.
- Nearly 25% of students who chronically use prescription opioids also use heroin.

WHAT ARE OPIOIDS?

Opioids are a powerful and addictive type of prescription painkiller that have similar chemical properties and addiction risks as heroin. While opioids may provide temporary relief, they do nothing to address the underlying injury and can have serious side effects.

These drugs may lead to: dependence, tolerance, accidental overdose, coma and death.

The most common prescribed opioid painkillers in West Virginia are:

- Oxycodone (OxyContin)
- Hydrocodone (Lortab and Vicodin)

HOW TO PROTECT YOUR CHILD

- Talk to your healthcare provider about alternative pain management treatment options (see below).

First-time prescription opioid users have a 64% higher risk of early death than patients who use alternative pain medication.

- If your child is prescribed an opioid painkiller, talk about the dangers of misusing medication, including overuse and medication sharing.
- Monitor your child's intake of prescription medication to ensure he/she is following dosage instructions.
- Safely dispose of any unused medication through a prescription drug drop box or a DEA Take-Back program.

NON-NARCOTIC PAIN MANAGEMENT ALTERNATIVES

Physical Therapy
Chiropractic
Massage Therapy
Acupuncture
Over-the-Counter Medication

New EMERGENCY ACTION PLAN New

127-2-15 Emergency Action Plan

15.1. On or before December 31, 2018, each member school shall adopt and submit to the West Virginia Secondary Schools Activities Commission (WVSSAC) an Emergency Action Plan (EAP) for athletics, designed to respond to athletic injuries that occur on school property during school-sponsored athletic practices and events.

15.2. Each EAP shall include:

15.2.1. Implementation of the EAP for every sport at every level. The EAP shall discuss how it is to be implemented with the participation of the school's principal and athletic director (if any), coaches, and athletes.

15.2.2. Training. The EAP shall include any necessary training for any person designated as responsible for any portion of the implementation of the EAP. Training may be in person or online, as may be available to the school.

15.2.3. Protocol for summoning emergency medical assistance. The EAP shall discuss how the school's sports teams will assign responsibility for summoning emergency medical assistance in the case of an emergency during a practice or event.

15.2.4. Protocol for beginning Cardiopulmonary Resuscitation (CPR). The EAP shall discuss how the school's sports teams will assign responsibility for beginning CPR in the event it is necessary. Each sports team must have individuals trained in CPR. The school shall provide proper training to any individual assigned responsibility for performing CPR.

15.2.5. Protocol for the use of Automated External Defibrillator (AED). The EAP must address how the school's sports teams will assign responsibility for retrieving and using an AED in the event it is necessary. Each sports team must be instructed on the location of the nearest AED to any practice or event facility. The school shall provide proper training to any individual assigned responsibility for using an AED.

15.2.6. Protocol for the treatment of heat stroke. The EAP must address how the school's sports teams will prepare for and treat heat stroke. Each sports team that practices outdoors must have available an emersion tub, water, ice, and towels, to be used for the treatment of heat stroke. The EAP must address how the school's sports teams will assign responsibility for obtaining these items and preparing them before a practice or game begins.

15.2.7. Written records. The EAP shall require that each of the school's sports teams assign responsibility for the items discussed above at the beginning of each season, and record those assignments on a written record, which record shall be retained by the sports team and the school.

15.2.8. Symptoms and risk factors for sudden cardiac arrest. The EAP shall require that schools train athletes, coaches, and volunteers about the symptoms and risk factors for sudden cardiac arrest.

15.2.9. Coordination with local Emergency Medical Systems. The EAP shall require that schools coordinate with their local EMS personnel, notifying EMS personnel of the availability of AEDs at the school, and notifying EMS personnel of the EAP adopted by the school.

15.2.10. Follow up and retraining. The EAP shall require that school sports teams that respond to an emergency incident meet to discuss their response after the incident has passed. Discussion shall center on the team's response to the incident, areas for improvement, any retraining that may be necessary, and any counseling that may be required for the individuals involved.

15.3. Schools may, but are not required to adopt the **Anyone Can Save a Life Program** (available at www.anyonecansavealife.org), which meets all of the requirements of this Rule, to be implemented as that schools EAP in compliance with this Rule.

15.4. Each EAP adopted pursuant to this Rule shall be provided to the County Board of Education, and shall be retained by the County Board of Education until the EAP is superseded by a revised EAP.
